### Melbourne Cup Public Holiday
**Tuesday 4th November**
Children **do not** come to school on this date.

### Pupil Free Day
**Monday 17th November**
Children **do not** come to school on this date.

### Subway Lunch Orders
Subway Lunch Orders have had a small cost increase. **Lunches Orders are now $6.00**. Orders must be returned on Thursday for lunch delivered on Friday. An order envelope will be available from the teacher or the office each week.

If you wish to place an order, fill in the order envelope and return to the school on **Thursday by 10am together with $6.00** (Please enclose correct money).

### Sun Smart
A reminder to all families that in Term 4 and Term 1 each year it is compulsory for children to wear a sunsmart hat in order to go out to play.

### Asphalting works
You may have noticed that asphalting works are well under way around the grade 6 area. This will be finished early next week and make the space around the portables and basketball courts usable all year round.

### Science Talent Search Award Day at La Trobe University
On Monday 27th October, 2014 six children from Lyndale Greens Primary travelled to La Trobe University to accept their Minor Bursary Award for their class project. We started our project back in March. We looked at the fruit tub and I asked a question. What is the difference between a cucumber and a pickle? After doing some research
I found out that
brine or vinegar. Our whole class decided to do some experiments on different types of food and how long they last.  

**Armina 4 C**

I really enjoyed presenting our posters and other things to the people and the judges. La Trobe University is like a mini city. It has a bank, post office, apartments and lecture halls with seats. I really had feelings we were going to get lost and we did.  

**Marjina 4 C**

I enjoyed looking at other student's models and the high school models as well. I thought the university was very big. We got in the wrong room and we had to ask many people where to go. I felt challenged by participating in Science Talent Search.  

**Moin 4 C**

One invention I particularly liked was the Hume Anglican Grammar School project on Alternative Energy. I liked walking down into the amphitheatre. You can listen to a concert or lecture outside. We had difficulty finding our lecture hall but we had a nice presentation.  

**Tutanekai 4C**

and we had to make decisions about what liquids to put in the jars to preserve our food.  

**Chetan 4 C**

The best thing about Science Talent Search is meeting new people with great inventions. But the difficulty was that we got lost several times. I really enjoyed participating and learning new things.  

**Lasitha 4 C**

**World Teachers Day Celebrations**

Today we celebrated World Teachers Day with a morning tea for our wonderful teachers. It is only through their dedication and commitment that we continue to provide such an excellent curriculum for our students. We were lucky enough to have one of our community members, Lisa Brocklehurst, surprise us with an amazing cake! It certainly was spectacular. Thank you Lisa!

**Community Announcements**

**JUNIOR CRICKET 2014/15**

New players required – all age groups

**MILO In2 Cricket (beginners 5 – 9 years)**  
Under 11, 13, 15, 17 grades
