Melbourne Cup Public Holiday  
Tuesday 3rd November  
Children do not come to school on this date.

Pupil Free Day – Monday 16th November  
Children do not come to school on this date.

Choir – Congratulations to our Choir who performed earlier this week in the inter-school Choir competition.  
Our Students won the Australian section of the event. Congratulations to Mr. Fernando and Mrs. Dell Orifice who did such a wonderful job preparing the choir for their big day.

2016 Planning  
We are currently looking at our 2016 planning for grades, grade structures, specialist and grade teachers. To help us with our planning, we need to know as accurately as possible, our 2016 student enrolment numbers.  
If you know of a family or friend who will be enrolling their child in Prep next year, could you ask them to either call in and see us, or give us a call as our prep numbers are filling fast.  
Moving house or moving to a new suburb – If your family is intending to move out of the area and will not be attending Lyndale Greens in 2016, we would greatly appreciate you notifying the office as soon as possible.

Student Assessment  
During the next few weeks, teachers will be conducting a range of student assessments and testing to ascertain your child’s learning outcomes. It is extremely important that your child completes all of the appropriate assessment as this enables your child’s teacher to provide a reliable and valid assessment of your child for their December report.

Yard Supervision & School Finishing Time  
Parents are reminded that the school grounds are officially supervised from 8.45 am to 3.30 pm Monday to Friday. Please ensure your child is collected at the end of the school day which is 3.15 pm.

Science Results  
The Science Drama, Science Talent Search and Kids Teaching Kids teams (66 students in all) celebrated their extra curriculum science projects at a hot chip and ice-cream lunch on Friday. The Science Talent Search students found out how they went in the competition. There were 19 entries, including one class project from 4A. There were 54 students involved in Science Talent Search in 2015. Of the 19 entries only
The Beanstalk was performed by the Drama team. The storyline was about a giant who was trying to eat the beanstalk. The audience was laughing at the presentation and the actors were enjoying themselves. After the performance, the audience clapped and the actors received their applause. I think the performance was a success.
